

### Objective

To understand the process you will need to go through to create a credible roadmap to net zero

### Content

- What does net zero mean?
- How to create a roadmap to net zero emissions including...
  - Calculating all the emissions of your business
  - Setting targets in line with a 1.5°C global warming limit
  - Eliminating, reducing or substituting all avoidable emissions
  - Checking progress annually and adjust
  - Compensating for unavoidable emissions with carbon removal
- Accelerating progress through wider influence
- Reporting progress
- Taking your first steps

### Delivery

This is a full-day course (9.00-17.00)

The course will be delivered online via zoom or in-person.

A workbook will be provided.

### Pricing

Price per participant = £349 (+ travel expenses for in-person courses)

There is a minimum charge of 6 participants and we can take a maximum of 20.

We would be happy to take deliver a course to a mixed group of people from multiple organisations if that can be arranged.
